

Cable Cutting Discussed

City Manager Hugueley (center), Pole McClellan (left) discuss with Philip Wm. Albani, Executive Vice President of Schwab Bros., plans for the City, the Telephone Co. and Schwab's crews cooperating in locating and marking telephone lines and water lines so that the Sewer Contractor may avoid cutting any of them.

The party viewed the work performed in restoring cables on the telephone company in another street cut by a drainage line Monday.

The workman in the controlled working elevator is Chas. F. Motley and his assistant on the ground is Wm. A. England. These two men have placed the cable in a very short time compared to an oldtime crew of five or six in several days.

The elevating of this cable resulted from a meeting reported last week of telephone officials and City representatives.

The City has arranged to have a veterinarian at South Bay City Hall, Saturday, February 13, from 2 to 3 o'clock. Dogs must have inoculation certificates before license tags will be issued.

After February 25, 1965 all dogs not properly registered will be impounded.

April 3 Is Date Set For Harvest Queen Contest

The Harvest Queen Committee announced April 3 is the definite date for the Jaycees' 12th Annual Harvest Queen Contest, and applications are now being taken.

Any single girl from 16 to 21 who lives in the Glades area is eligible to enter. Applications and further details may be obtained at Grant Averill's Photo Shop, 241 Avenue A, Belle Glade.

The committee has been meeting for the last two months and plans are well underway for this year's contest. Bill Aspy, overall chairman for the event, has constructed a scale model of the High School stage to help the decorating committee in placing the Harvest theme settings.

Mr. Alice Mixson is coordinator-director for the pageant and will be planning the scenery and be in charge of the contestants.

Judges for the event have already been selected and the scoring system will be used again this year in determining the winners.

CREEPING... OR GALLOPING?

The Legislative Clinic held here Friday is a modern interpretation and symbol of the Early American Town Hall Meeting. The average citizen may express an opinion, and have it listened to, concerning his community life, his privileges, and his responsibility.

This is Americanism at work at the most effective level, the Community.

Socialism, a prerequisite to Communism, has been imposed on the community from the county level, and from the National level, most recently.

Representatives of the Health Department have pointed out the "fine print" of laws and regulations that allow them dictatorial power, in their own interpretation, without recourse to common sense, practical application, or legal review. Palm Beach County agents have been and are now harassing individuals.

A representative from Pennsylvania Avenue, the Mall, or high Administrative offices in the District of Columbia "laid the law down" to Glades sugar producers, this week, with definite punitive results for non-compliance.

Elementary Teachers Give Suggestive Help At P.T.A. To Parents Of Spanish Students

At the P. T. A. meeting in the Belle Glade Elementary School, Tuesday, February 3, a very interesting discussion of the new situation created by the abundance of Spanish speaking students, formerly 10 percent of the pupils in each class.

Mrs. Margaret Moley, Area Supervisor of Glades Elementary Schools, looking very tired and lovely, made everybody feel at home. She talked about the changes taking place in the school and community life with the increasing number of Cuban population. She said that Belle Glade is no longer considered a small community, it is a young progressive city with people of many interests and backgrounds.

At present there are 77 Cuban children enrolled in the Belle Glade Elementary School and 43 in the Gove School. In Palm Beach county there are approximately 1,000 children whose native language is Spanish. And 18,000 children enrolled in the schools in Miami.

Mrs. Moley made introduction of the teachers who gave their views on the matter.

She said, this is not a new experience in Belle Glade, because in 1948 we had our first Puerto Rican children's problem in communication, and translation.

And they had to bring some Spanish speaking people to avoid panic caused by the difference in language; even tried sign language. And recently we have a great number of Cuban people come to our school. We have been greatly impressed by their education, manners and ability to learn.

Mrs. Mabel Lutz, Principal of the Gove Elementary School, said she is a young progressive city with people of many interests and backgrounds.

That Lake Okechobee is the funnel of accumulation and source of fresh water for South Florida has been impressed on the public recently when uncontrolled permission for tapping it has been sought by several interests, including a Federal Bureau, without regard for rights of upstream riparian interests, or historical users.

From St. Lucie County around to, and including Ft. Myers, students and engineers have awakened to the implications of restricted use of that water.

For many years Belle Glade has complacently "enjoyed" water in its city mains of an inferior quality, with occasional "right conditions" allowing an acceptable quality.

Phokee and Clewiston have had good water, because they went into a part of Lake Okechobee for source that was not disturbed and contaminated by drainage waters from farmlands around the Lake.

Belle Glade's City Fathers have taken advantage of several years' study of locations for an intake of Lake Water where contamination is not major, and work is presently underway to establish that intake at Winnie's Cove.

Since 1938, when Dr. Black of the University of Florida designed a plan for ten to twenty years' anticipated needs, the City has barely begun planned works, when renewed surveys recommendations and demands brought additional improved capacity.

Sunday morning one of the quarter-century old main pipes at the Water Plant just "came in two." No valves were found to shut off that particular line from the tanks and reserve supply; so all the water supply had to be shut off while the break was repaired.

In looking for the reason for this "no water" condition THE HERALD viewed the repaired pipe and found the water plant from stem to stern, all the while asking questions.

One question: "Why are pipes such as this one allowed with valves to shut off a part of the system, and do such conditions still exist?"

No one knew, until search was made for valves supposed to have been installed, that they were not there — other conditions may still exist, and they may not be found until the complete rehabilitation along with the new line to the Lake, is finished under present plans.

Another complete shut-down might occur until all lines are relaid, replaced or enlarged, for if one quarter-century-old pipe just "gives up the ghost," then others may do the same.

Spring training camps will open in Florida during the week ending following the ceremonies here, and the Mets will be in St. Pete after the 26th.

A member of the Headquarters Staff of Holyday Inn of America will be on hand for the formal dedication and opening.

On Sunday afternoon, February 14th, there will be open house at the Inn, and all residents of the Glades are especially invited to come and see just what is being offered to the visitors to the Glades in modern accommodations.

The Glades Sanitation Co. was granted an exclusive franchise for garbage and trash pickups in the unincorporated areas near Canal Point and Lake Harbor Monday.

The company petitioned the City Council for a franchise to have garbage disposals.

The cattle market is up pretty good and we also had a few 16.50 to 16.75 cent slaughter cows today. Light weight slaughter calves were up 1.00 to 2.00 and stocker calves were up from 1.00 to 1.50. All other classes were about steady, with a good demand for all classes," said market manager, Pete Clemons.

Citizens Air Views On Legislation

Mr. Average Citizen was recognized as having an interest in possible legislation to be offered during the approaching session of Florida's potentially illegal bicameral law-making body in Tallahassee Friday by three members of the County Delegation — Senator Thomas, Representatives, Emmett Roberts and Donald Reed.

Years ago, through efforts of the Resources Development Board, the County Delegation agreed to hold hearings open to the public or the purpose of letting the public know that legislation of local import would be proposed by the Delegation for the various municipalities and special purpose groups.

Comments pro and con are invited so that the legislators might know any feeling of the public.

The Legislative Clinics are now an accepted procedure with hearings held in convenient places in the county.

Friday's meeting in Belle Glade was held at the Dixiana private dining room.

Northside Chapel

Pastor Announces Series Of Sermons

The Rev. H. Jack Ponce, pastor of the Northside Baptist Chapel, announces a series of sermons on the Book of Revelation. He will be preaching from this book at the Sunday evening worship services beginning at 7:30 p. m.

All are invited to come and hear the message as they unfold from this much neglected book of the Bible.

Last Sunday night, Rev. Ponce began this series and showed his congregation that the book holds a vital message for the Christians of 1965. He said that Christians should not be afraid to read and study this book. It is an unveiling of Jesus Christ and therefore should not be side tracked by laymen and preachers alike.

Troop 621 To Hold

Eagle Scout Court

Of Honor Feb. 10

A Court of Honor will be held Wednesday, February 10th in the Everglades Presbyterian Church sanctuary in recognition of Troop 621, and Gene Hollingsworth. These two young men recently attained the rank of Eagle Scout, the highest rank in Scouting. The meeting will begin at 7:00 p. m. and will last approximately 45 minutes.

A boy must put in many hours of hard work and study in order to attain the rank of Eagle Scout and few of the boys who start out along the road of Scouting ever reach this goal. It is therefore fitting that the occasion be made a memorable one for those who achieve this high degree of success.

The public is invited to come and witness this impressive ceremony, and by their presence show the boys that their efforts have not gone unnoticed.

Mayor Williams

Speaks To Lions

Mayor, LeRoy Williams was guest speaker at the Lions luncheon meeting, held at the Community Center, Wednesday.

Speaking on the achievements in the City of Belle Glade for the year, 1964, special emphasis was placed on the sewerage project. He also discussed many other interesting phases of improvements in the City. This was followed by a very interesting question and answer period for the Lions and their guests.

Missionary Convention Begins Tonight

At Belle Glade Alliance Church

Participating in a church missionary convention beginning at the Belle Glade Alliance in Viet Nam since 1947

now home on a year's furlough at Nyack, N. Y. is one of the speakers. During his five year term on the mission field he was assigned to the Alliance

project, of receding gospel broadcasts which are then beamed to the Vietnamese on more than 30 station outlets. He and his associates have had the privilege of seeing this gospel broadcast grow from the original 90 minutes weekly to more than 20 hours of Christian

broadcasting. Rev. Houck has served as a part time teacher in the Evangelical Theological Institute of Viet Nam. In his previous terms on the field he was given varied ministry mission assignments doing five

years in district evangelism work, teaching in Bible schools and aiding in youth work.

Rev. Roger Lewis, a missionary in Indonesia since 1951 will describe the tragic results of the great volcano in 1963 on the island of Bali, in which 1500 persons lost their lives. They lived close to the volcano and were engaged in relief work.

In 10 years of intensive evangelism in Bali, Mr. and Mrs. Lewis preached the Gospel in 200 Hindu villages and distributed many thousands of Scriptures portions to people who had never had any contact with Christians. Besides Bali, the islands of Lombok and Sumbawa are in the Lewis Parish, in which there are only four small national Christian groups among the population of 1,500,000 persons, mostly fanatical Moslems and Hindus.

Both missionaries will display curios, costumes and slides during the conference.

Big Lake Music Festival Draws 226 At Okeechobee

The Big Lake Baptist Association Music Festival was held last Sunday at the First Baptist Church in Okeechobee with 12 entries and a total attendance of 226.

Rev. James A. Fenton, Association Music Director stated that all choir Hymn Players and Song Leaders received Superior Ratings which meant that all choirs received either "A" or "B" in the Festival.

The Judges for the Festival were Mr. Arnold Bridges of the Pembroke Baptist Church in West Hollywood; and Mr. and Mrs. Guthrie Colvard of the First Baptist Church in Palmetto.

Our witnesses made a particularly strong case on the cost of labor and expense they have expended in recruiting domestic labor as far as Missouri and Pennsylvania.

—Worship—

Does it seem to you that God is remote? Is worship meaningful to you? Man's capacity to worship his creator is one of his distinguishing qualities.

Worship should strengthen the inner man, but we are not strengthened spiritually when our spiritual sensitivities are not awakened. The worshiper misses the very heart of religion when he is simply an onlooker or spectator. To be beneficial worship must be active.

This is the reason that each Christian should endeavor to participate in each phase of worship. There are two necessary qualities in acceptable worship: (1) one must worship correctly (in truth); (2) one must worship in spirit (from the heart). Read John 4:24. Try to make this coming Sunday the most meaningful experience in your life.

You are cordially invited to attend the worship services of the Belle Glade Church of Christ which meets at 125 N. W. Avenue D.

Growing OLD GRACEFULLY

It isn't automatic — this growing old gracefully. Worries seem to accumulate with the years. And there is something about the growing old that often brings a sense of promise lie empty where we tossed them . . . along a road without return.

But these later years are not meant to be a burden. There is much to suggest that God intended them to bring reward.

He gave us the blessing of memories, so precious moments of joy may be lived again and again.

He gave us the gift of love, so we can experience anew the adventures of youth, the achievements of maturity, in the lives of our children and grandchildren.

And he gave us a Way of Life, revealed in the teachings of Christ. So that every today . . . when it has become yesterday . . . will be another graceful stone in the arch of tomorrow.

BELLE GLADE ECHOES:

Norma Arias' 13 year old birthday party, was celebrated at her parent's home, Aida and Alfonso Arias. It began at six o'clock in the evening, and the house was full with young teenagers.

There were: Norma Arias, Estrella Alvarez, Maria Larrozo, Consuelo Toledo, Debbie Unwin, Connie Alvarez, Sandy Sprinkle, Rosalia Fresno, Olga Pichardo, Mayra Alvarez, Gloria Telaraja, Marianne Johnson, Diana Mesery, Vickie Brantley, Eddie Mesery, Ramon Gonzalez, Ernesto Sanchez, George Cervera, Paul Prescott, Ramon Zubizarreta, Julio Perez, Armando Telaraja, Jose Fernandez, Fernin Fresno, Tito Alvarez, Pepe Viera, Richard Viera. In their beautiful new home, this modern group of young people danced to the new swing and rock-and-roll in vogue. Two lovely cakes were on a table

adorned with pink Gladiolas. And her mother, Aida Arias, famous for her good cooking, prepared some delicious croquettes and sandwiches.

Last Sunday, January 24th, there was a family dinner at Maria Luisa and Paco de la Vega. Attended by Mr. Pedro Hernandez Lopez (press secretary from Diario de la Marina), Pastora and Abel Tolon, Father Espinosa, Eida and Sergio de la Vega, with their daughters and niece. They had a wonderful rice and chicken stew, and the famous cake by Maria Luisa.

Following our customs of Cuban dominical lunches, Mimi and Manolo Porro gave one luncheon party in honor of Catalina and Rafael Parracias, who recently arrived from Cuba. Also Lourdes and Humberto Astia, Margot and Ramon Acosta, Teresita and Ramon Gonzalez, Lourdes Mata, and Teresita Gomez.

Monday there was a ladies' luncheon at Lulu Canales, attended by Mimi Porro, Catalina Parracias, Consuelo Guerrero, Margot Acosta, Maria Gonzalez, Lourdes Mata, and Teresita Gomez.

On January 31st, was the 24th year wedding anniversary of Margot and Ramon Acosta. Our best wishes for happiness without end. And also for Mr. Acosta's birthday, on that same date.

On February 2nd, Jorge Porro was three years old, he is Mimi and Manolo Porro's son.

On January 27th Carlos Wel-

bre was also three years old, he is Juanita and Alfred Weber's son, who had his birthday cake with all his neighboring little friends.

This last week, Maria and Pablo Carreno went to Plant City on a business trip, and later went to Miami to spend the weekend with their grandchildren.

Pepe's wife was Maria Esperanza Gonzalez, birthday, lovely wife of Dr. Gerardo Gonzalez from Lake Harbor. She came to Belle Glade to treat her little daughter in the hospital. Now they are back home and the girl is fine. Congratulations.

On January 27th and 28th Dr. Manuel Soto gave some lectures on heart, at the Community Center, in benefit of the Heart Fund Society. To this lecture on heart diseases, listened eminent alumnus from Belle Glade High School. Among them we find Maria Adela Iglesias, Caridad Blanco, Sherry Burgess, Linda Hollingsworth, Glenn Wolf, Richard Hooker, Rosanne Wood, Aggie Hrossinger, Cynthia Thiebaud, Chip Kautman, Janice Kidder.

On January 29th, is Saint Francis of Sales anniversary. He is the patron of the newspaper people. We commend to him a prayer.

In this past week, in Fort Lauderdale, there was a dinner party at Maricusa and Jorge Echarte's home. From Belle Glade, Miami, and surrounding, attended Maria and Pilo Latour, Angelita and Manolo Ramirez, Bebita and Richard Martinez, Ferrer, Magda Urrea, de la Valdes, Moraima and Felix Granados, Beba and Miguel Falcon.

Maricusa set a lovely table with dishes in white porcelain, decorated in gold by herself, made a delicious dinner, and the house looked lovely with its swimming pool.

On February 3rd Ramon Zubizarreta is 18 years old. He is Margot and Ramon Acosta's nephew, and is completing his studies here in Belle Glade High School, with a numerous amount of friends. Happy birthday, Mr. Zubizarreta.

There is excitement and anticipation for the snack party to be held February 6th in honor of Teresita Gomez and her brother Eduardo Gomez, as both their birthdays are in this month. Teresita is eight years old, and Eduardo is 10 years old on Feb. 2nd. Happy birthday to both of you.

FROM MIAMI

At the Surf Club in Miami there was a fashion show on January 27th, attended by Mrs. Juanita C. Ponts, Mrs. Whitman and Mrs. Ryan.

On January 23rd at five thirty in the afternoon at St. Michael's Church, with nuptial mass and veiling ceremony, took place the marriage of Ada Larrea and Raul Masvidal. She wore a lovely wedding dress made at the Palm Beach Salon Francaise. Looked beautiful in her miniature orange blossom tiara, with her veil in a very copious tulle. They are going to live in Arizona, where the bride groom is getting a Master's Degree in Economy.

St. Michael's Church was full

of people, and among them we recognized Mrs. Maria Teresa Larrea, Elisita and Pancho Ataxia, Marta and Armando Felo, Alicia Litama and Dr. Ramon Oyarzun, Maria Bernal, and Emilio Rodriguez, Clotilde and Felipe Rivero.

In Miami's Jackson Memorial Hospital, finished Mrs. Maria Tere Rivero Vda. de Ferran, very seriously ill. All her friends are very sad with this news.

Mrs. Guillermina Garcia Montes de Gomez Waddington, very esteemed in all our Latin Colony, has just arrived from Europe, and is visiting her brothers in Miami, as always very nice and elegant. She will stay till March 20th, for her niece's wedding, Diana Arellano and Gonzalo de Cardenas.

SAD NEWS

Sorrowful news have reached us of young women in our society who have met an early death:

Conchita Freyre, young Mrs. Zarraga, 39 years of age, of sweet and lovely character, who leaves three children. She is Ernesto Freyre and Concha Rosales' daughter. Our deepest sympathy.

Gloria Seigle de Gomez, young and pretty wife of Mr. Enrique Gamba, who finds himself causes us sorrow. She was school mate of ours, and her death causes us sorrow.

Carmela Sampedro, very much loved in our society, died on January 26th this year. Her sisters and brothers must be suffering her loss, because they formed a very united and kind family.

Maricusa, Elizabeth Clara, Chano and her other brother, Rogelio, her cousin, Nena Manzanera, and Andrew Goodman, from New York.

MEAT BOULLON (Ingredients)

- 1½ lbs. stew meat
- 6 cups water
- 1 tsp salt
- 1 tsp Accent
- 1 tsp Tomato Paste
- 1 green bell pepper, cut in half
- 1 handful of parsley leaves
- 1 bunch of green onions
- 3 garlic teigs (peeled and mashed)

It is best to cut the meat in 2 or 3 inch pieces. Wash it. Place all the ingredients in a casserole. Leave them soaked for half an hour. Place the casserole on the stove and when it boils, low down the heat to medium heat, cooking for two hours approx. When the soup is done, the vegetables should be well covered. You pass the soup through a large colander.

This bouillon is best to make it early. And keeping it covered.

TAPIOCA OR VERMICELLI SOUP (You should already have in hand a package of this paste). Pour four tablespoons of vermicelli or tapioca in the boiling bouillon, and let it boil for 8 to 10 minutes.

CHICKEN BOULLON. Use the bouillon recipe substituting the meat for 2 lbs. of chicken or hen.

FISH BOULLON. Use the bouillon recipe substituting for 2 lbs. of fish.

PLANTAIN OR BANANA CHIP SOUP. For each cup of bouillon, half a cup of banana chips, well grounded. Serve it hot and if you wish, some drops of lemon.

POTATO SOUP. You can peel and grind the raw potatoes in a blender, and use for each cup of bouillon, half a cup of ground potato. Pour the potato into the boiling bouillon, and let it boil for 8 to 10 minutes.

PUMPKIN SOUP. Same as above, but use pumpkin.

VEGETABLE SOUP. For this

TEEN-AGER COLONY IN BELLE GLADE

To all of you teen-agers I can tell that we understand the country when leaving your country, and the difference of having your parents there helping you and directing you it all its aspects; and now you find them so busy, that you are the ones who have to help them, cutting the grass, cleaning, doing the dishes, cooking, etc. And you must be very busy with your studies, preparing for a career, job, well in short, preparing for life.

Now at an early age is when it is convenient to form good habits, which will bring on good customs. For example, this is the moment to watch your posture and good manners. You have to both look forward to walking and sitting up straight. And some daily exercise is always convenient for hardening your muscles. Any sport such as playing tennis, is magnificent and here in your Belle Glade Park, on S. Main Street, there are two tennis courts, just waiting for you. In summer swimming is a good exercise, ideal to control your muscles.

For example, the daily bath is very necessary. It is very good to possess a brush to wash your back, and one for your finger and toe nails. For those who wish to have a good complexion, it is good to wash your face with warm water, clean wash cloth, and a germ-destroying soap. As for your hair, shampoo at least once a week.

And cleaning your teeth with toothbrush and toothpaste.

Food has a lot to do in getting to have a good complexion. If you have too much grease on your skin or blackheads, you should avoid beans, chocolate with nuts, and fried potatoes. And in your diet, eat cut fruits, vegetables, cereals and milk.

Young men as well as young women should start to pay some attention to their clothing, studying the styles which suit them best. If you like to look better, make your silhouette long and thin, and of the same color; thinner, then dark clothes or with downward stripes, makes your silhouette long.

1. Two tall and thin, then you can "fatten" your silhouette using contrasting colors in your shirt and pants, or skirt and blouse, and frizzes or pleats in your skirt.

One has to be organized in the taking care of your clothes, such as cleaning shoes, washing, ironing whatever is needed, sewing whatever is torn, and all your buttons on. This taking care of your clothes should be paid attention to daily. And keep your clothes neat and in order in your rooms. To the girls who like to use make up, they should use very little especially if they are very young.

Many of our teenagers do their errands, go to school and the stores riding bicycles. It is good to remember safety rules that exist in the United States for the use of bicycles.

1. Learn to ride in a safe place, keep off busy streets.

2. Obey all traffic lights and signs.

3. You should have on your bicycle a bell or horn to give warning.

4. At night, it is required to have white light up front, and red tail light on rear of bike.

5. Signal must be given before turning or stopping.

6. Pedestrians must be given "right of way" by riders.

7. Only one rider per bicycle. Two would be dangerous and unlawful.

8. Coasting into streets from driveways, should never be done.

9. Be careful with parked cars, and watch for opening doors.

10. Hitching on to moving vehicles is unlawful and unsafe.

11. Always use both hands to steer your bicycle. Riding with "no hands" is risky and foolish.

12. Keep to your right, close to the curb.

13. Be careful in rainy weather in order not to skid on wet streets. Watch also for "deep tracks" and ruts in the road.

14. At night, wear white or light colored clothing.

P. D. - Cylee Center, where you used to fix all your bicycle tires, has moved to 335 S. W. 4th Street, here in Belle Glade. Take Note.

Famous Indianapolis Race Driver **CHUCK STEVENSON** presents:
"Highway Safety Is No Accident"

A special Highway Safety Program that convincingly shows your sons and daughters why it's smart for them to drive safely. The program covers:

- MENTAL ALERTNESS • DRIVER COURTESY
- SAFE VEHICLE CONDITION

The Highway Safety Program comes highly recommended by leading educators, law enforcement authorities, and civic leaders across the country. It is a three-line winner of the Public Safety Award of the National Safety Council, and has already been presented to over 8,000,000 students in all 50 more than 5,000 high schools in all 50 states. When Chuck Stevenson speaks, teen-agers listen. One of the world's leading race drivers, Chuck Stevenson has firsthand knowledge of today's highway driving hazards. He personally drives over 50,000 miles a year to bring youngsters everywhere a safety program they will long remember.

Lindsley Lumber Grows in Florida

The Lindsley Lumber Company, with home offices in Miami, Florida, announced today the addition of 5 new yards. The announcement was made by Charles T. Broder, president.

All these yards are now in various stages of development and will be located in the following Florida cities: St. Petersburg, Orlando, Lake Worth, North Miami Beach, and Wilton Manors.

The 5 new branches are expected to create 67 new jobs. The company which now operates 40 retail outlets plus 3 wholesale warehouse operations has been cited as the fastest growing lumber company in the United States.

The EBS Development Corporation, a subsidiary of Electric Bond & Share, now owns the Lindsley Lumber Company.

Also announced at this time is the company's entrance into the automobile accessory line and the addition of a plumbing fixture and fitting department.

The 1965 expansion plans were prompted by encouraging economic developments in the areas in which the new yards will be located. Company officials point out that favorable prospects for tourism, institutional development, and industrial growth were prime factors in determining each of the new sites.

Lindsley officials state that target buying has always been a basic factor contributing to the growth of the company.

Glades Sanitation Is Awarded Trash Pick-up Franchise

Monday, an exclusive one-year franchise for garbage and trash collection, was granted to the Glades Sanitation Company by the County Commissioners. This franchise will permit trash to be picked up in all unincorporated sections of the Glades, but not municipalities. Glades Sanitation has an exclusive franchise for garbage collection in Belle Glade. Their attorney, Billy R. Jackson, was denied a request that Commissioners consider his client for the franchise.

Commission chairman, Luke Loyal, stated that the Glades Sanitation had complied with the law and filed for petition for a franchise, and that the only thing to be considered was whether or not to grant it. On a ruling by County Attorney, Harry A. Johnston, that only the petition for franchise was before the commissioners for consideration, the franchise was awarded to Glades Sanitation.

Details as to where the garbage will be dumped, will be decided upon and announced at a later date, as well as other details that were not settled before the franchise was granted.

Mrs. Bedsole

Is Victim Of

Hold-up Attempt

A negro youth entered the car of Mrs. Clara B. Bedsole, 290 S. W. Avenue H, as she was preparing to leave from Mathis-Bee Appliances, Saturday night, and told the woman "don't move or I'll blow your head off." Panic-stricken, Mrs. Bedsole jumped out of her car and was apparently in a dazed condition when observed by three youths driving by. Gerald Watson, Emmett Trammell and John Kelling stopped and Watson chased the negro as he ran south on second street.

Several negro youth have been rounded up by police since the attempted hold-up, but as yet, none of the suspects have been identified by Mrs. Bedsole.

contrado una muerte temprana: Conchita Freyre, joven senora de Zaragoza, de 29 años de edad, dulce y carinosa, que dejó tres hijos. Ella es hija de Eusebio Freyre y Concha Rosales. Tuvieron un sentido pesame.

Y Gloria Seigle de Gambro, y bonita esposa del Sr. Eusebio Gambro, quien se encuentra en La Habana. Ella es compañera de nuestro grupo de amigos. Lo sentimos muchísimo.

Carmela Sampedro, tan querida en nuestra sociedad, murió el 26 de Enero de este año. Sus hermanas tienen que sentir mucho su pérdida pues era toda una familia muy unida y cariñosa. Tanto María, Clara, y Eusebio.

Y una prima Nena Manach, que es de Nueva York. Y su primo Nena Manach, que es.

PARA UN BUEN CALDO DE RES (Ingredientes)

Para o mejor
1/2 lb carne de guiso
1 taza agua
1 eda. sal
1 eda. Aceite
1 eda. pasta de Tomate
1 aji picado en dos y limpio.
1 puñado de perejil
1 cebolla entera y pelada
1 dientes ajo (pelados y aplastados)

La carne picada en trozos de 1/2 lb. se lava. Lavarla. Poner todos los ingredientes en una cacerola. Dejarlos en remojo durante media hora. Poner la cacerola al fuego y cuando rompa el hervor, bajar la llama para que se cocine a fuego mediano durante dos horas aproximadamente. Debe mantenerse la cacerola bien tapada. Cuele el caldo.

Este caldo es bueno hacerle temprano y cuando se lo necesite, sopar de fideos o tapioca. (Tener ya comprado un paquetito de pasta). Echar 4 cucharadas de fideos o tapioca en el caldo hirviendo, y dejarlo hervir durante 8 o 10 minutos.

CALPO DE POLLO. Usar la receta del caldo substituyendo la carne por 2 lbs. de pollo o pollo de mami.

Hay mucho embullo para la merienda que van a tener el día 6 de Febrero Teresa Gomez, su hermano Eduardo Gomez, que los dos cumplen años en este mes. Teresa cumple años en Feb. 10, y Eduardo en Febrero 2. Felicidades a los dos.

En el Surf Club de Miami, hubo un fashion show el día 27 de Enero, al cual asistieron Mrs. Juanita C. Font, Mrs. Whitman y Mrs. Ryan.

El 23 de Enero a las cinco y media de la tarde en la Iglesia del Sulp Franciscan de Palm Beach, Estaba preciosa con su tarta de azúcares en miniatura y un velo de tulle muy copioso. Ellos se van a vivir en Arizona donde el novio piensa sacar un negocio en Economía.

La Iglesia Santa Michael estaba muy llena, y entre los asistentes, la señora María Teresa Letica, Elvira y Pacho Aizala, María y Armando Fox, Alicia Lizama y el Dr. Ramon Oquendo, María Bernal y Emilio Rodriguez, Clotilde y Felipe Rivero.

En el Hospital Jackson de Miami, se encuentra la Sra. Tele Rivero Vda. de Perez Rera, muy grave. Todas sus amigas están entristecidas con esta noticia.

La señora Guillermina García Montes de Gomez Waddington — muy estimada en toda nuestra Columna Latina, acabo de llegar de Europa, y está visitando a sus hermanos en Miami. Como siempre muy elegante y simpática. Se quedará aquí en la bodega de su sobrino Diana Arellano, que será el 29 de Marzo, con Gonzalo de Cardenas.

NOTICIAS TRISTES:

Nat'l Teachers Exams To Be Given At Palm Beach Junior College

Palm Beach Junior College has been designated as a test center for the National Teacher Examinations on March 20, 1965. Albert E. Bishop, Registrar, announced today.

College seniors preparing to teach and teachers applying for positions in school systems which encourage or require applicants to submit their scores on the National Teacher Examinations along with their other applications are eligible to take the tests. The examinations are prepared and administered by Educational Testing Service, Princeton, New Jersey.

The designation of Palm Beach Junior College as a test center for these examinations will give prospective teachers in this area an opportunity to compare their performance on the examinations with candidates throughout the country who take the tests. Mr. Bishop said.

At the one-day session, a candidate may take the Common Examinations, which include tests in Professional Education and General Education, and one of the 13 Teaching Area Examinations, which are designed to evaluate his understanding of the subject matter and methods applicable to the area he may be assigned to teach.

Bulletins of Information describing registration procedure and containing Registration Forms may be obtained from Albert E. Bishop, Registrar, 4200 Congress Avenue, Lake Worth, Florida, as long as supplies last, or directly from the National Teacher Examinations, Educational Testing Service, Box 911, Princeton, New Jersey. Prospective teachers planning to take the tests should obtain their Bulletins of Information promptly, Mr. Bishop advised.

First Place Trophy was presented (l-r) to Jeff Harris; second place, Tommy Ziglar and Third Place, Bobby Allen, received gold cups. Other finalists in their Dens were Randy Davidson, Bruce Wells, Dennis Kinlaw and Mark Orenigo.

The annual Pinewood Derby of Cub Scout Pack 622 was held at the January Pack meeting last Friday in Jameson Hall. The derby cars are made from standard kits as a father and son project of the pack and considerable imagination is shown in the shaping and painting of the cars. The race is run on a special four lane track, 16 feet of slope to gain speed and 16 feet of flat out run to the finish line. The first place trophy was won by Jeff Harris, a new Bobcat Cub Scout from Den 1. Second and third place gold cups went to Tommy Ziglar, Den 7, and Bobby Allen, Den 6. Other finalists were winners in their Dens: Mark Orenigo, Den 2, Bruce Wells, Den 4, Dennis Kinlaw, Den 5, and Randy Davidson, Webelos Den. Derby race officials were Bill Ziglar, starter, Ray Caruthers and Jim Herling, car inspectors, and Fritz Stein and Horace Harris, finish line judges.

Prior to the races Cubmaster Frank Thomas welcomed two new Cub Scouts, Rocky Stein and Jeff Harris, into the Pack. Advancement committee G. F. Pittman presented Wolf badges to Tommy Edens, Mike Douglas, Mike Cunningham, and Jay Harville; Bar badges to Joe Wright, Mark Orenigo, Jeff Harris, and Tony Martinez; and a Lion badge to Bryan Cross. Arrow points for additional achievements were awarded to Tony Martinez, Bryan Cross, Mitch Crawford, Pat Minor, and Charles Hall.

Gerald Pittman was presented with his Webelos badge and a miniature Webelos pin for his mother by Cubmaster Frank Thomas. The Webelos rank is the highest in Cub Scouting.

Attendance to this Pack meeting was very good. Pack 622 was the award with 90 percent of parents present, followed closely by Den 1, and Den 2.

secretary was on duty and answering phones and other questions. These were documented with certificates etc. And the Spanish speaking parents need to know about lunch money, bus money, and where to get them. What time children should arrive at school in the morning, etc. If the parent places his trust in this public school, the child needs to know that he is wanted and accepted. There are some Spanish speaking people who help them with forms for school, as we make them up," Mrs. Lutz said.

Mrs. Myrtle Johnson, teacher of 2nd Grade Belle Glade Elementary School, expert bilingual teacher who has had bilingual experience in Arizona, talked about methods like mimes, using, listening, reading and writing to learn English. They use the same method for the children as for Puerto Ricans. Using tape records too, teaching 300 words to each vocabulary. The important point being the comprehension and understanding in teaching. We use color, action, toys and pictures to teach words. Games and sets were followed by M. Brane 158 214 175 517, A. absorbs everything, good and bad example. The language means and customs are easy to absorb. It is not the language problem.
"They talk a different English at school than the one they learn in their neighborhood. And if they think they have done something wrong, then they put an innocent face, as if they did not understand. I have not seen any major problem of adaptation of the children in Belle Glade, but if there is some, it is mainly related to their own environment. Some of their parents find it a little more difficult to adapt themselves, and it reflects on the children. This may explain some of the difficulty the teachers may have in school. I, as a doctor, do not think there is any problem with the Cuban children," he said.
"We have a problem with our children forgetting their Spanish, when they come home, and they try to speak English. At home, I forbid them. From the door, in they speak Spanish. At the door out, they speak English," he added.

Mrs. Mary Alma Stevenson, teacher of Conversational English to the Non-English speaking pupils, we use simple phrases and nouns filling a vocabulary of the basic words they need to communicate with the other students. It is up to the teacher to provide enough material because they absorb it so fast, and they are certainly quick to learn. We use vocabulary cards, with pictures on the other side of the card. I tell them to teach me Spanish. It is amazing how a Spanish student sees a book in his own language, how he gains confidence, and how quickly he can teach the English vocabulary.
Mrs. Joe Mann, 5th Grade Teacher, Osceola School, in Palmetto County, Teacher of Conversational English to the Non-English speaking students in the Palm Beach County schools. She learned a great deal of Spanish while teaching English to adults. And he discussed the importance and responsibility of the Adult members of the community in relation to the satisfactory adjustment of the children in school.

He said that during the past years it was a new experience for him to be in Cuba. The Spanish speaking people are very desirous of improving their conversation language. They try to speak the correct pronunciation, but when they go out and try to speak with their American associates, and neighbors, they find it very difficult to understand their language. We Americans should improve our Spanish. The implication here is clear: It is very important to participate in the school activities. I would like to assure their parents that their background is reflected in their children.

Mrs. Eladio Koch, leader of the Cuban church and community, has come here as representative of the parents of the Adult English Class. He said "I was invited here tonight, especially to answer any question from the Spanish speaking families who are here. And after Dr. Guerrero explained all in terms in general, I don't see any need for my translation. So will just explain to the Spanish speaking people that they do not have to go to school. When we came here to a foreign country, we have to know what to do. But even our small children are learning English playing in the streets with the other children."

And Mr. Koch told a little anecdote about an American boy, who lived in Cuba, 8 years old of American parents. And when he first went to school, he ran away from school, carrying his shoes on his shoulder, saying he came back home because he did not understand.

SAN FRANCISCO, CALIF.
(HTNC) Jan. 14, 1965—Equipment Operator Constructionman K. Martin, USN, son of Mr. and Mrs. Henry J. Martin of Belle Glade, Fla., is serving with the 6th Construction Battalion 11 and is scheduled to depart Port Huemene, Calif., between Jan. 13 and 20 for Okinawa.

The battalion will be the first seaboard battalion to deploy entirely by air rather than using the other method of surface transportation. By deploying by air the battalion will be able to save many hours thus allowing the personnel to spend more time with the families in Port Huemene, and at their new duty station. While in Okinawa the battalion will work on many important jobs and will construct a new Marine Barracks at Camp Hansen.

7TH INFANTRY DIV., KOREA (AHTNC)—Army PFC Arthur V. Stanley, whose wife, Rachel, lives at 601 Grand ave., Orlando, Fla., participated in Exercise ROLL BACK, a five-day winter field training exercise in Korea that ended Jan. 22. During the maneuvers Stanley and other members of the 7th Infantry Division received extensive training in defensive combat operations, with mock attacks launched against them to test their preparedness.

Racing Veteran To Conduct Highway Safety Program

Chuck Stevenson, of Newport Beach, Calif., a veteran of 18 years in automobile racing and an eight time competitor in the Indianapolis 500 mile race, will present the nationally recognized and award winning Highway Safety Program in

Belle Glade High School on Feb. 8th. Arrangements for Mr. Stevenson's appearance were made by Clay Wenger of Glades Auto Supply.

On three occasions the National Safety Council has presented its Public Service Award to the Champion Spark Plug Company for developing and maintaining the program. This spring the Alfred P. Sloan, Jr. Award for outstanding service to highway safety was given the company which also has been recognized by the United States

Auto Club, the Continental Casualty Co., and the Public Relations Society of America for its meritorious contributions in the interest of safety.

Mr. Stevenson is one of eight Indianapolis veterans who appear daily in the high schools

throughout the nation. Since 1934 more than eight million teenagers have heard the safety message which compares the controlled speed at the Indianapolis Motor Speedway to its operation on the highway.

"We point to attitude as the biggest factor in driving," Mr. Stevenson says. "We skip the usual do's and don'ts of driving and maintain that by keeping a car in good operating condition, being mentally alert and

Chuck Stevenson

practicing common courtesy we would come up with a sizeable decrease in our annual traffic tolls.

"Our business of racing," he continues, "is the matter of recognizing the calculated risk we take and preparing for it. On the other hand, most motorists don't even take into consideration the calculated risk which confronts them when they get behind the wheel of a car. This can lead only to trouble."

Mr. Stevenson competed in the eighth race at Indianapolis last May. He went out of the race on the third lap, a victim of the crash and fire which took the lives of drivers Eddie Sachs and Dave McDonald. Mr. Stevenson was immediately behind the accident, and drove through the wall of flame and smoke, hitting a broken part on the track and damaging his own running gear.

He has competed in all types of racing, winning the Mexican road race in 1932 and the national big car driving championship the same year. Mr. Stevenson is a member of the Indianapolis 100 Mile An Hour Club, reserved for those Indianapolis drivers who have completed the 500 miles without relief at an average speed of more than 100 miles an hour.

SMYRNA, Tenn. — Airman Second Class Richard P. Smith, son of Mr. and Mrs. James S. Smith of South Bay, Fla., has been awarded the U. S. Air Force Small Arms Expert Marksmanship Ribbon at Stewart AFB, Tenn.

Airman Smith received the ribbon for his outstanding marksmanship with the service rifle during annual qualification firing. He is a pavements maintenance specialist in a unit that supports the Tactical Air Command mission of providing fire-power and other air support to U. S. Army Forces.

The airman is a graduate of Belle Glade (Fla.) High School.

ORLANDO, Fla. — Technical Sergeant Edward L. Bensen, formerly of Grant, Fla., was one of the U. S. Air Force Air Rescue Service (ARS) men deployed in the Atlantic in support of the mid-January firing of the Gemini-Titan II space vehicle from Cape Kennedy, Fla. Sergeant Bensen, permanently assigned as a command post technician at Orlando AFB, Fla., was on station at one of the primary recovery points along the Air Force Eastern Test Range. He was there to assist in the all-important task of recovering the Gemini capsule so scientists could study the data gathered by the instrument load. The shot was made in preparation for the first manned Gemini launch into space.

The sergeant's ARS unit was responsible for recovery assistance along the capsule's flight path.

Sergeant Bensen is a graduate of Melbourne (Fla.) High School. His wife, Jo Ann, is the daughter of Mrs. A. E. Goodson, Star Route, Canal Point, Fla.

Have You Noticed . . .

New Billboards Here?

Grant Averill, Belle Glade photographer, drinks milk — and so do a lot of other people in Palm Beach county if you're looking around at billboards here and in the West Palm Beach area.

It's a promotion of the South east Florida Dairy Institute. And there are some names on the boards (one name to a board) as John D. MacArthur of Palm Beach Gardens, the nation's third richest man, William Barrow, West Palm Beach police chief, and Robert Hunter, museum director in West Palm Beach.

It's too good to be just for the young — says the sign — and part of the message might be that teenagers might grow up to be big healthy, important people if they drink milk.

The Right Path

I am really on the right path—
If I always look for the best
in each person, situation, and
thing.
If I resolutely turn my back
on the past, good or bad, and
live only in the present and future.
If I forgive everybody without
exception, no matter what
he may have done; and if I then
forgive myself wholeheartedly
if I regret my job as sacred
and do my day's work the very
best I can.
If I endeavor to make my life
of as much service to others as
possible.
If I refrain from personal
criticism, and neither speak nor
listen to gossip.
If I devote at least a quarter
of an hour a day to prayer.
If I read the Bible every day.
If I train myself to give the
first thought on waking to God.
If I practice the Golden Rule
of Jesus instead of merely ad-
miring it.

—Emmet Fox

How To Be A Failure

Economic affairs are so arranged today that it is almost
impossible to avoid success. I have often seen it myself — a man
with all the makings of a perfect failure suddenly swept to suc-
cess just because he got overconfident. He thought failure was
easy. Foolish man. It requires as much skill to become a truly
outstanding failure as it does to become truly great in any field.
First, you must get rid of the almost universal belief that
success is desirable. Successful people work like dogs, and often
for others. Failures do not have to work at all. Successes get
pushed around by bosses and competitors. Successes often get
so wound up in their jobs that they cannot even sleep well.
Failures can usually sleep, even in the daytime.
And consider this. If you are a success, your problems will
get bigger and bigger. You may have to cope with the whole
national budget or head a company that has problems in 20
different nations. And nobody cares. There is no government
bureau devoted to the problems of successes.
Whereas, if you are a failure, everybody worries about you.
The whole government studies your case. Everybody loves the
underdog — and it doesn't matter how far under the dog is.
How, then, can a smart man achieve failure? You have to
get something to fail at. You have to have a job or preferably a
series of them. One of the signs of a real failure is the sympathetic
statement: "Poor Uncle Bill, he's tried everything, and nothing
ever seems to work out."
Then you should learn to avoid doing a real day's work for
a day's pay. Learn to goof off. A half-done job is plenty good
enough. Free from responsibility. Talk a good game, but don't
take a chance on playing one.
Don't be a "yes man." Either, it is so refreshing to have a
man say, "Yes, sir," and go get the job done these days that you
might get promoted and fall in your attempt to fail. The safest
thing is to be a "yah, but" — the only five-minute rule in the
house. If you are an executive, you can paralyze progress and
avoid decisions by saying, "Yah, but I don't think we should
rush into this."
Above all, make sure that you do not fall in love with your
work, for the real enemy of failure is the thrill of achievement.
More promising failures have gone wrong because they
discovered that achievement is fun than for any other single
reason. So watch out for the moment when pride begins to
show. Avoid the feeling of wanting to tell someone that
you have had a really good day.
Finally, there are a few things that you ought to forget right
at the start.
Don't listen to your parents, never volunteer your labors,
and above all don't get ambitious.
So if you follow these rules you will be helping to turn the
Great American Dream into the Great American Snore.

Think About It

One of the major newspaper
headlines of today is the ac-
cusal which has rocked the con-
sistency in the form of cheating in
the United States Air Force
Academy. It seems that a cer-
tain number of the football team
confiscated a key to one of
the lockers where final exami-
nation papers were kept. He
proceeded to take a copy of the
test and offered to make copies
to sell them to fellow cadets.
The Air Force is both shocked
and embarrassed at the
strange situation in which it
finds itself involved. One
would think that a boy of such
high caliber to be admitted to
the Academy would be above
cheating. However, cheating
seems to be an almost popular
"way of life," for some students.
These students want to see just
how far they can go without be-
ing caught. It does seem that
the stricter the punishment the
worse the cheating is committed.
The Air Force situation is cer-
tainly out of the norm. One
University of Florida fresh-
man summed up the honor sys-
tem at Gainesville like this:
"We're afraid to cheat; we've
worked so hard to risk expul-
sion in the hopes that we may
make a point or two higher on
an exam."
Most of the time that at Gainesville
the punishment truly fits the
crime. At Florida and most Uni-
versities, cheating is one of the
most common of all offenses.
The administrators and advisors
feel that a student's personal
word is his proudest and most
prized possession. Cheating on
an exam is not cheating anyone
but himself; certainly it doesn't
affect the teachers. Cheating
can bring only rightful punish-
ment to the student when caught,
but it also brings ex-
treme humiliation to the stu-
dent's alma mater no matter
where the school.

Kathi LeBeau

Wins Award In

Homemaking

Kathi LeBeau has been named
Belle Glade High School's 1955
Homemaker of Tomorrow. She
scored highest in a written homemaking
examination taken by senior girls
Dec. 1, and is now eligible for
state and national honors.
Test papers of all school home-
makers of Tomorrow for the
state are currently being judged.
The state's highest-ranked girl
will receive a \$1,500 scholarship.
The winner of the annual Betty
Crocker Search for the American
Homemaker of Tomorrow will
be chosen on the basis of original test
score and personal observation,
and interviews during the tour.
She will receive an increase in
her scholarship to \$5,000. Se-
cond-third and fourth-place
winners in the nation will have
grants ranging to \$4,000,
\$3,000 and \$2,000, respectively.
The Betty Crocker Search for
the American Homemaker of
Tomorrow was initiated by
General Mills in 1954 to empha-
size the importance of home-
making as a career. Including
this year's record enrollment of
more than half a million senior
girls in more than 14,000 high
schools, the total number of
participants during the pro-
gram's 11-year history stands at
nearly 10 million. Scholarship grants
exceed \$1 million.

The first United States pat-
ent was enacted in 1790.
Patents were issued without
numbers until 1868. Since then
3,182,000 patents had been
granted as of December 22,
1964.

Civilians Climax

Citizenship Week

Mr. Travis Messer, past gov-
ernor of Civitan International
for the state of Florida, ad-
dressed the students of BGHS on
the other side, the duties and
in an assembly program last
Friday afternoon.
Everyone is aware of the
rights and privileges that citi-
zens are entitled to. Mr. Messer
pointed out, but often ignored
the other side, the duties and
responsibilities.
Outlining the growth of citi-
zenship from Roman times, Mr.
Messer showed that the preser-
vation of a democracy depends
on each individual exercising
his duties to uphold it.
Jorge Pinon, Jr., Civitan Pres-
ident, coordinated the assembly
program in which Lane
Crockett defined the club's aims.
Gene Hollingsworth recited the
Credo, and the guest speaker
was those whom we welcomed
by Eddie Vandegrift.

Mr. Messer was accompanied
to Belle Glade by Major Ak-
kuper, who is past governor of
Civitan International for the
state of Tennessee and West
Virginia.

Jorge met Mr. Messer at a
Civitan Council Meeting last
month and on the recommen-
dation of Don Fidler, a member
of the local Civitan Club asked
him to speak. This program was
the climax of Citizenship Week
at BGHS.

Weekly Thoughts

"The love of justice is simply
the love of the majority, the
fear of suffering injustice."
"We always like those who
admire us; we do not always
like those whom we admire."
"Selfishness is the greatest
curse of the human race."
"In our own honest hearts
and charmed hands will be our
safeguard."
"Friendship is Love without
its sting."
"There is not a joy the world
can give like that it takes a
way."

Youth

By Susanna Wierengo
"Our youth we can have but
today.
We may always find time to
grow old."
Because we are youthful only
a short part of our lives, we
should make the most of it. We
must make the most of our
education, our experiences in
life, and be good citizens in our
community and our country.
Benjamin Franklin said: "It
is in youth that we plant our
chief habits and prejudices, and
the youth of our life is the
time when we are writing on
our mind to our chief goals in
life." Since we have many
things that need to be accom-
plished in our lives, we should
start working toward these
goals in our youth.
Many great achievements
have been accomplished during
the youthful years: Alfred Tennyson
wrote his first volume at the
age of eighteen; Alexander
Dumas wrote his first novel at
the age of twenty-five; Byron, Ra-
phael, and Poe died at the age
of twenty-seven after writing
names among the world's im-
mortals; Newton made many
great discoveries before he was
twenty-five; Victor Hugo wrote
a tragedy at the age of fifteen.
Many of the world's geniuses
saw forty years.
Every day in the newspapers
and magazines, there are arti-
cles about the violent youth that
are becoming a world wide
problem; youth of today, let us
not be a part of this problem.
The Aristotle said, "All who've
mediated on the art of govern-
ment mankind have been con-
vinced that the fate of empires
depends on the education of
youth." We should take ad-
vantage of our education and
help shape our policies in our
youth because we are youth
today, will not only be tomor-
row's leaders of the world; we
will shape and mold the world
of tomorrow by what we are
today.

Student Council

Work To

Complete Plans

Does the Student Council
Care? Do the students care.
These were the questions that
Mr. Hayes, Student Council
sponsor, asked the members to
ponder on.

Although there are just 17
weeks of school, the council is
determined to finish all cam-
paign plans made at election
time. Once again the cafeteria
Committee has been estab-
lished to further better nutrition
and appealing foods. A Hand-
book Committee was formed
for the purpose of creating an
informative book of school pol-
icies and principles. This is
planned to be distributed at the
beginning of school year '55-56.

New ideas were brought up
for the improvement of the stu-
dent body. The proposal of a
club calendar, intercom, an-
nouncements, and more infor-
mative assemblies were favor-
ably accepted by the club.

Each individual member is
looking forward to meeting these
challenges and fulfilling the re-
sponsibility of their job of re-
presenting the students.

In Color

This week our Outstanding
Senior Personalities Column is
featuring Lynda Long and
Danny Lanier.

Lynda Kay Long, a bright 5'
7" brown-eyed senior, prefers
the title "Lard" above her given
name. She is Cheerleader,
Captain and an active member
of Beta, Pep, and PTA Clubs.

Born July 13, 1941, in Mac-
con, Georgia, she is the only
child in her family.

Talking on the phone, dan-
cing, and having plain 'ole fun
are listed as her favorite pas-
times. Lynda is easily recogniz-
ed by her new red Corvair.
Yellow and red are her favorite
colors with her favorite sport
being cheering. "I'm So Proud"
is her preference of records.

Lynda is Co-Editor of the
1955 Rambler and claims jour-
nalism as her favorite subject.
Acceptance at the University
of South Florida has also been
added to her many achieve-
ments.

Leader - Statesman - Orator - Writer!

Senator George Smathers pays a fitting tribute to a World Figure, whose name will be entwined in history as long as history will be written:

The passing of SIR WINSTON CHURCHILL has created a void which will never be filled. He was the greatest figure of our times and one whose loss will be personally felt by millions in this country and around the globe. Sir Winston was a MAN OF EXTREME CAPABILITY — a LEADER OF GREAT COMPASSION AND RESOURCEFULNESS — a STATESMAN WITHOUT PEER IN ANY GENERATION — a WRITER AND PAINTER OF UN-

COMMON PERCEPTION — an ORATOR WHO COULD INSPIRE MILLIONS — and the one man in Great Britain in 1940 who could muster to Herculean efforts in its struggles with Nazi totalitarianism. HIS MEMORY will be a LASTING INSPIRATION to us all. In 1953, I introduced appropriate legislation which would have made this GREAT MAN an HONORARY CITIZEN of the UNITED STATES. Naturally, I was highly pleased when, finally, the Congress passed and President Kennedy signed into law, such a measure in 1963.

Ten Of Florida's 67 Counties Pay!

Sales and Use Tax Collections for December, based on business reported during November, totaled \$20,298,075. J. Ed Straghan, Director of the Florida Revenue Commission, reported today. Straghan said collections were \$2,038,265, or 11.16 per cent more than the same month last year.

Collections for the current fiscal period, beginning July 1, 1964 total \$118,404,590, or an increase of \$14,918,428 over the corresponding period of the

previous fiscal period. Percentage-wise, the increase is up 14.41 per cent.

The director of revenue also reported that the five percent wholesale sporting goods tax for December totaled \$109,870, or an increase of 43.44 per cent, or \$33,277 over the same month for 1963. The tax thus far this fiscal year has produced \$608,376, up 110.45 per cent or \$319,829 over the same period for fiscal 1963-64.

Ten of the 67 counties paid 73 percent of the total, Dade, Duval, Broward, Hillsborough, Pinellas, Orange and Palm Beach, in this order, with over a million each.

Polk, Escambia and Brevard follow.

The same counties, in different order, paid 69 percent

of the total of \$11,706,263 gasoline tax for the month of December.

Florida's Debt Below National Average For '64

The public debt of the state of Florida, together with that of all local governments within the state stood at \$3,384,200,000 at the end of the 1963 fiscal year, the Florida State Chamber of Commerce reported in its Weekly Business Review.

"This state-wide debt included all monies owed by any part of the Florida state government, plus what was owed by counties, districts and cities in the state. Last year's total was 15 per cent over 1962 compared with a national gain in state and local debt of 8 per cent.

"For every Floridian — man, woman and child — the total means an indebtedness of \$427 each. Eighteen other states had higher per capita figures and the 50-state average was \$464, federal debt not included.

"The Florida total included \$34,100,000 local government short-term debt; \$1,845,900,000 local long-term debt and \$484,200,000 state long-term debt. Long-term obligations are non-guaranteed and are payable solely from pledged earnings of specific projects or from special assessments. During the year, new long-term debt issued in the state came to \$409,700,000 while a total of \$146,400,000 was repaid. Interest paid on the entire debt during the 1963 year totaled \$79,900,000, up 13 per cent over 1962 compared with a national gain of 9 per cent."

The Farm Front

By Doyle Conner
Commissioner

The people who report agricultural developments on the Washington scene have been having a tough time trying to figure out just what kind of a farm program the President will be proposing to Congress in his special message on the subject. There seems to be a pretty general opinion in the Capital that this is the year when a new look will be revealed concerning how the "farm problem" is to be handled from here on out. It is being suggested that not only the problems of the farmer will be considered, but also those of the entire agribusiness complex — processors, handlers, brokers, wholesalers, retailers, etc. — when Congress goes to work on debt for implementing the new look.

It looks to me like Congress will find it no easier to pass new farm legislation this year than it has since the debt of the 1930's. I noted one report that pointed out our legislators have operated under two handicaps when dealing with agricultural:

(1) Since homesteading days, agriculture has been pretty much isolated from the rest of our economy and from the American society. Only in recent years have non-rural people begun to realize something of the interdependence that exists today between rural and urban residents. But until agriculture took the initiative toward accomplishing broader mutual understanding, non-rural people have felt they have little business being concerned about agriculture's technical and economic problems.

(2) Farmers themselves, who could be of inestimable value

in helping to shape constructive farm policy, have been of little help to Congress because of the diversity of opinions voiced by their spokesmen in the leading farm organizations. This lack of unity on basic farm issues has confused Congressmen and has shifted the preponderance of representation in Congress has shifted definitely from the rural to the urban areas of the nation. I am inclined to the belief that a much broader view of what agriculture is will be embraced in the new concept of legislative solutions to present farm problems which Congress will be asked to tackle.

Some voices in Congress have been raised recently in strong defense of the U. S. Department of Agriculture which has been under heavy pressure to reduce its budget. Latest cause for agriculture speeches in both the House and Senate was a recent article by Budget Director Kermit Gordon in the Saturday Review, attacking the commodity programs. He asserted they have failed to solve the problems of the 2½ million low-income farmers while giving to about 1 million successful, commercial farmer roughly 80 per cent of the 4 BILLION dollars spent on various commodity programs.

As Gordon sees them, the cold economic facts are that "the chief claimants to assistance are the 2½ million farmers who do not now and cannot in the future be expected, to operate successful commercial farms. . . . They require assistance in a painful transition to non-farm jobs to which most of them, and their children, will certainly have to move."

Uncle Dan Says

Dear Mister Editor:

If President Johnson aims to balance the budget he'll have to get busy and turn off more lights and tell Secretary McNamara to close down a few capitals.

I bring this item up at the country facts are that "the chief claimants to assistance are the 2½ million farmers who do not now and cannot in the future be expected, to operate successful commercial farms. . . . They require assistance in a painful transition to non-farm jobs to which most of them, and their children, will certainly have to move."

First Off, I see by the papers where the \$33,000 of the Navy spent for studying flying sub-marines was paying off. They were working on a model now they claim might be the trick, shoot out of the water, drop a bomb, and scout back under the ocean. Whether it works or not, you can figure on a few million for this project. And it ain't but one step from there to building battleships that can operate under water like submarines. That'll take a few more millions.

But the big news in the papers last week was where the Commissioner of the District of Columbia was planning to rebuild about half the city in Washington. He has called in a fellow named R. J. Neutra that is an expert on planning. Building cities and the news or got from him was all bad. H says our nation's capital looks like alums compared to the capital of other big countries. He claims Washington looks so "poverty-stricken it was sapping the life" out of Government workers. Federal employees, he says, will just get more and more irritated until they finally go nuts! The Commissioner agreed with him 100

per cent and they were now working on plans to submit to the President to "rebuild Washington to the point where it will catch up with other world capitals."

Diazinon controls most Florida vegetable insects.

Diazinon® insecticide is the only product you need to control most of the major insects of Florida vegetable crops. Here's the kind of "money-in-the-bank" program that Diazinon can provide:

Diazinon simplifies your spray program. It reduces the need to use several different insecticides. You spray less when you spray with Diazinon. So you save time and money.

You kill insects quickly with Diazinon. And the "staying power" of Diazinon provides outstanding control of problem insects like aphids, Southern armyworms and leaf miners for a long time.

You can use Diazinon throughout the seasons. And close to harvest . . . without residue problems. So take advantage of the benefits of superior vegetable foliar insect control with Diazinon. Order dependable Diazinon 50W wettable powder, or Diazinon AG500 emulsifiable concentrate, from your local supplier today.

Feb. 20-21 at Indiantown American Sport - Rodeo

The nation's only invitational, Rodeo, the Circle T, will take place February 20th and 21st in the famed Rodeo Bowl at Indiantown, 35 miles N. W. of West Palm Beach.

Marking the 18th year that the Rodeo has been held in Indiantown, the 1965 event is expected to attract over 15,000 spectators to the Rodeo Bowl.

The unique invitational aspect of the Circle T Rodeo, has made it the "All American" event of rodeo. Only the nation's outstanding champions are invited to ride, leaving less experienced rodeo men to win their spurs at other events. The Circle T Rodeo is also widely known for the world quality of its "rough stock." Rather than being hired from a contractor for the event, as is the case in most small rodeos, the stock used at the Circle T is specially bred on the Circle T's own sprawling spread. Leading a most gentle life 282 days of the year, the stock is carefully selected and bred with but one objective, to act like live dynamite on the remaining two

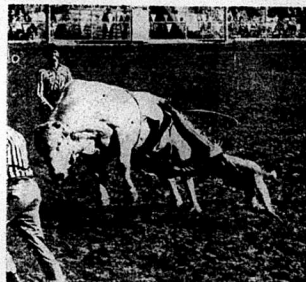

days of the year. In fact, most of the stock is used for one day only in order that their fighting spirit not be dampened.

Rodeo cowboys have come to be specially weary of Circle T rough stock.

Adjoining the large concrete and steel rodeo bowl is the 6,000 ft. Circle T airstrip, which is connected to the Rodeo Bowl by a 2,000 ft. taxi way. The airstrip is host to a massive fly-in of private aircraft at rodeo time, and adds additional pungency to the highly colorful surroundings. The Rodeo Bowl, regarded as the most beautiful in the nation, is carpeted with much green grass and provides from its top an almost limitless view of Florida's cattle and citrus land.

The Circle T Rodeo has become one of South Florida's outstanding sports attractions, keeping pace with the phenomenal nation wide growth of rodeo, which last year saw rodeo contestants win three million dollars in prizes.

The remarkable growth of rodeo is of particular interest in

"He went that-a-way" at last year's Circle T Rodeo in Indiantown. This year, the Rodeo has been set for the 20th and 21st of February and is expected to draw an even greater number of spectators than the 15,000 who witnessed the rodeo in past years.

The bull riding contest is considered one of the most difficult and dangerous of the five standard Rodeo events.

the light of its being the only American sport which grew from an industry, as well as being the only truly native sport in the United States. All others were imported from Europe, including baseball which originated from an English game played with sticks and a ball. Rodeo, which stemmed from the skill of competing cow hands before the turn of the century

has not only staked its claim to being the only truly American sport, but has also proved to be one of the most exciting. It is living - and growing - proof that the spirit of adventure and attraction to danger did not pass away with the old West, but is as present as ever in today's youth. Almost a hundred college and universities filed rodeo teams.

Electric irrigation doesn't cost... it pays!

CREATE YOUR OWN "RAIN" WHEN YOU NEED IT

Electrically-pumped irrigation equipment improves farm yields and profits. Ends drought worries in dry spells . . . and helps protect crops during cold snaps.

Even in normal weather it pays off during critical periods of growth—the time when plants need extra stimulation in order to thrive and produce the greatest yield.

Modern irrigation is just another of the many jobs that Reddy does best on the farm and in the home . . . quickly and cheaply!
